

# Party Affiliation and Me Too

## Research Question

Does support for politicians with assault allegations depend on party allegiance?

Will liberals and conservatives vote for an accused sexual assault predator of their own party over a moderate of the other party?

Is there a correlation between support for Me Too and willingness to support assault candidate? Does it differ by party?

"IV" + Measures (No true manipulation)

## Party Affiliation

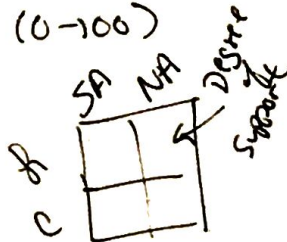

- Measured by composite Conservatism Scale Score (0-140)
- Liberal = 0-58 (outer 1/3)
- Conservative = 82-140 (outer 1/3)

## Candidate Support (Degree)

- Degree of support for both
- Measured by slider (0-100)

## Candidate Vote

- Yes or No
